

Certificate of Achievement

Matthias Giger

has completed the following course:

ARTIFICIAL INTELLIGENCE: DISTINGUISHING BETWEEN FACT AND FICTION COVENTRY UNIVERSITY AND INSTITUTE OF CODING

This online course explored your understanding of artificial intelligence (AI) and how to separate the reality from the hype.

2 weeks, 3 hours per week

Huma Shah
Assistant Professor
Coventry University

The person named on this certificate has completed the activities in the attached transcript. For more information about Certificates of Achievement and the effort required to become eligible, visit futurelearn.com/proof-of-learning/certificate-of-achievement.

This learner has not verified their identity. The certificate and transcript do not imply the award of credit or the conferment of a qualification from Coventry University and Institute of Coding.

Matthias Giger

has completed the following course:

ARTIFICIAL INTELLIGENCE: DISTINGUISHING BETWEEN FACT AND FICTION COVENTRY UNIVERSITY AND INSTITUTE OF CODING

This course explored artificial intelligence, how it's perceived today and the differences between the hype, marketing and reality of AI. It examined Alan Turing's scholarship following his codebreaking successes in World War II at Bletchley Park. Furthermore, you looked at how John McCarthy coined the term 'artificial intelligence (AI)' and the current state of the art, including manufacturing and social robotics.

STUDY REQUIREMENT

2 weeks, 3 hours per week

LEARNING OUTCOMES

- Explain the different features of human intelligence
- Distinguish between the claims and current reality of artificial intelligence (AI)

SYLLABUS

- Roots of artificial intelligence (AI)
- Different features of human intelligence
- Asimov's laws
- The reality of AI
