Certificate of Achievement

Matthias Giger

has completed the following course:

GET CREATIVE WITH PEOPLE TO SOLVE PROBLEMS
UNIVERSITY OF LEEDS AND INSTITUTE OF CODING

During this course, you've learned why human-centred design is effective, how to use it, and which jobs use the process. You'll have boosted your ability to find effective resolutions to digital problems using human-centred design.

2 weeks, 2 hours per week

Matthias Giger

has completed the following course:

GET CREATIVE WITH PEOPLE TO SOLVE PROBLEMS
UNIVERSITY OF LEEDS AND INSTITUTE OF CODING

100%
OVERALL
SCORE

During this course, you've learned why human-centred design is effective, how to use it, and which jobs use the process. You've also become familiar with how to collect the right information and data to prove a solution can work in the real world. You'll have boosted your ability to find effective resolutions to digital problems using human-centred design.

STUDY REQUIREMENT
2 weeks, 2 hours per week

LEARNING OUTCOMES
• Identify the kinds of problem that can be solved with human-centred design
• Summarise the activities needed to run a successful human-centred design project
• Develop a human-centred design mindset to approach a problem
• Apply the Design Thinking process to a real-world problem
• Investigate how making and testing rough prototypes helps improvement
• Collect information and data that help prove a solution will work in the real world

SYLLABUS
• Gain a practical insight into human-centred design (an iterative design process in which designers focus on the users and their needs in each phase of the design process)
• Explore the use of design thinking methods
• Hear from others about how they use human-centred design
• Experiment with design thinking through a series of simple activities
