

Certificate of Achievement

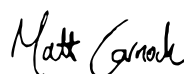

Matthias Giger

has completed the following course:

TEACHING FOR HOME LEARNING: SECONDARY SCIENCE
NATIONAL STEM LEARNING CENTRE

This online professional development course is designed for teachers of science to students aged 11-19 years, who are providing support for students to learn at home. It covered online and offline teaching strategies for supporting learning at home and at a distance.

2 weeks, 3 hours per week

Matt Cornock
Online CPD Coordinator
National STEM Learning Centre

The person named on this certificate has completed the activities in the attached transcript. For more information about Certificates of Achievement and the effort required to become eligible, visit futurelearn.com/proof-of-learning/certificate-of-achievement.

This certificate represents proof of learning. It is not a formal qualification, degree, or part of a degree.

Matthias Giger

has completed the following course:

TEACHING FOR HOME LEARNING: SECONDARY SCIENCE NATIONAL STEM LEARNING CENTRE

This online professional development course is designed for teachers of science to students aged 11-19 years, who are providing support for students to learn at home. It covered online and offline teaching strategies for supporting learning at home and at a distance. Learners participated in discussions with other educators, explored resources to support learning at home and evaluated a range of approaches for their teaching context.

STUDY REQUIREMENT

2 weeks, 3 hours per week

LEARNING OUTCOMES

- Design an approach to teaching secondary science, with offline and online activities to support students learning from home
- Evaluate a range of teaching strategies and tools, appropriate to your teaching context and teaching remotely
- Develop assessment and feedback opportunities to support home learning
- Reflect on the role of parents in supporting home learning

SYLLABUS

- Setting expectations for time management and learning routines.
- Planning for synchronous and asynchronous learning.
- Simple tools to support home learning tasks.
- Assessing student learning remotely and providing feedback.
- Teaching practical science remotely.
